## Professional Summary

I'm Abu Huraira, a junior backend developer and AI student focused on building clean, efficient, and scalable web applications using Python and Django. I'm deeply inspired by modern technologies like AI agents and blockchain. I enjoy experimenting with new ideas, learning continuously, and improving my development skills to become industry-ready as a future Machine Learning Engineer.

## Skills

### Technical Skills:

Python (Intermediate), Django Framework, REST APIs, Git & GitHub,  
C++ (Beginner–Intermediate), SQL (Basics to Intermediate),  
Backend Architecture (Beginner), AI Agents (Conceptual)

## Education

### Bachelor of Science in Artificial Intelligence (BSAI)

Minhaj University Lahore

2024 – 2028

## Projects

### E-Commerce Scalable Website

A backend-driven e-commerce platform designed to handle scalable product management and user operations. Implemented core backend logic using Python and Django with clean structuring to support future enhancements.

**Tech:** Python, Django, SQLite, HTML/CSS

**Role:** Junior Backend Developer

## Languages

English, Urdu
